March 14, 2010

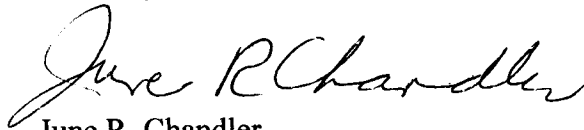

Public Service Commission of SC
Att: Docking Dept.
P.O. Drawer 11649
Columbia, SC

Office of Regulatory Staff:

I hereby urge you to deny the SCE&G the request for a rate hike. They already have a 2.5 percent increase annually for the next decade. Any further hike would put an unfair burden on the population, which already is suffering under the deprivations of a recession.

Such a request is an unfair request and is not in the best interest of our citizens or of our state as SCEG already has higher rates than any other investor-owned utilities. Please deny their request.

Sincerely,

June R. Chandler
